

NLX® strives to be the leading customer self-service automation solution. Its Conversational AI SaaS products help brands transform their customer interactions into automated, personalized self-service experiences. When implemented, NLX empowers a brand's customers to resolve their own inquiries at their own pace—with no wait time or frustration.

## Conversations by NLX

### CHAT & VOICE

Centrally design and manage all aspects of your AI-powered Chat and Voice conversations with little to no programming.

#### Automate

Work smart, not hard with low-touch customer self-service journeys

#### Personalize

Ditch your cold, general "Hello Valued Customer" greetings and build loyalty by recognizing the person reaching out

#### Pay-as-you-go

Only pay for what you use! NLX's unique usage-based model ensures every dollar is well-spent

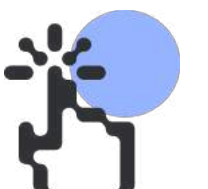

#### Scale

Meet your needs with customer self-service that fluctuates with demand

#### Measure

Get data from your customer interactions to understand trends, improve customer journeys, and inform business decisions

#### Integrate

Add value by integrating NLX with your existing technology investments to further improve customer experience

### MULTIMODAL

Augment your existing self-service flows by verbally guiding calling customers through an onscreen journey, automating support tasks that normally require live agent handling.
